Job Description

Location

Sector

Project Works

• Engineering, procurement and construction for the replacement of an Air Preheater in Oil Refinery	Singapore	Oil & Gas
• Engineering, procurement and construction for the replacement of Flues Stack and Ducting for Sulphur Recovery Unit of an Oil Refinery	Singapore	Oil & Gas
• Engineering, procurement and construction of specialty chemical storage facilities for a Chemical Plant	Singapore	Petrochemical
• Engineering, procurement and construction for piping, civil and structural for a Polypropylene Plant on Jurong Island	Singapore	Petrochemical
• Engineering, procurement and construction for piping, civil, E&I and commissioning for a Utility Plant on Jurong Island	Singapore	Utility/Services
• Engineering, procurement and construction of cryogenic storage facilities for a Utility Plant	Singapore	Utility/Gases
• Engineering, procurement and construction of storage facilities for a Power Plant	Singapore	Utility/Power
• Engineering, procurement and construction of an Effluent Recovery Plant for a Power Plant	Singapore	Utility/Services
• Fabrication and installation of topside modules including instrumentation, electrical and telecommunication systems for a FPSO vessel	Thailand / Singapore	Marine
• Engineering, procurement and construction of Butadiene storage tanks and export facilities for a Chemical Plant	Malaysia	Petrochemical
• Engineering, procurement and construction for the reconstruction of a Chemical Plant and Air Separation Unit	Malaysia	Petrochemical
• Engineering, procurement and construction for piping of a Chemical Cracker	Malaysia	Petrochemical
• Fabrication and erection of piping for a LNG Plant	Qatar, United Arab Emirates	Petrochemical
• Fabrication and erection of piping for a Chemical Plant	Saudi Arabia	Petrochemical

Maintenance & Turnaround

• Long Term Maintenance Service Contract for mechanical services for Oil Refinery	Singapore	Oil & Gas
• Long Term Piping, Fixed Equipment and Tankage Maintenance Service for Oil Refinery on Jurong Island	Singapore	Oil & Gas
• Long Term Integrated Plot Maintenance Service for Oil Refinery on Jurong Island	Singapore	Oil & Gas

Job Description	Location	Sector
Maintenance & Turnaround		
• Turnaround Management for Towers, Drums & Furnaces for an Oil Refinery on Jurong Island.	Singapore	Oil & Gas
• Maintenance and plant modification for an Ethylene Plant on Jurong Island	Singapore	Petrochemical
• Long Term Mechanical Piping Maintenance Service for Pharmaceutical Plant	Singapore	Pharmaceutical
• Maintenance of VLCC Jetty Infrastructure for an Oil Terminal on Jurong Island	Singapore	Oil & Chemical Terminals
• Turnaround Management and Execution for an Oil Refinery	Malaysia	Oil & Gas
• Long Term Routine Maintenance Service for a Chemical Complex	China	Petrochemical
• Turnaround Execution for electrical & instrumentation work for Chemical Plant	Thailand	Petrochemical
Engineering		
• Front-end engineering design and project management for a Chemical Terminal. Overall capacity of 280,000 m ³	China	Oil & Chemical Terminal
• Front-end engineering design and project management for a Chemical Terminal. Overall capacity of 130,000 m ³	China	Oil & Chemical Terminal
• Project management for a Chemical Terminal on Jurong Island. Overall capacity of 450,000 m ³	Singapore	Oil & Chemical Terminal
Oil & Chemical Terminals		
• Engineering, procurement and construction of a Chemical Bulk Liquid Terminal with associated mechanical, piping, civil and E&I works. Overall capacity of 950,000 m ³	Singapore	Oil & Chemical Terminal
• Engineering, procurement and construction an Oil Distribution Terminal with associated tankage, piping, civil and E&I works. Overall capacity of 240,000 m ³	Indonesia	Oil & Chemical Terminal
• Engineering, procurement and construction an Oil Terminal with associated tankage, piping, civil and E&I works. Overall capacity of 600,000 m ³	Fujairah, United Arab Emirates	Oil & Chemical Terminal
• Engineering, procurement and construction of Oil Distribution Terminal. Overall capacity of 220,000 m ³	Mozambique	Oil & Chemical Terminal
• Engineering, procurement and construction management for an Oil Terminal with associated tankage, piping, civil and E&I works. Overall capacity of 500,000 m ³	Vietnam	Oil & Chemical Terminal
Electrical & Instrumentation		
• Project management, procurement, installation and commissioning of DCS, Instruments and Cables for Oil Refinery	Singapore	Oil & Gas
• Long term Maintenance of instrumentation for Chemical Plant on Jurong Island	Singapore	Petrochemical
• Long Term Routine Maintenance Service for Electrical & Instrumentation for Specialty Chemical Plant	Singapore	Petrochemical
• Engineering, procurement and construction for electrical distribution and monitoring systems for Water Treatment Plant	Singapore	Utility/Water
• Engineering, procurement and construction for electrical distribution system for Oil Refinery	Thailand	Petrochemical
• Engineering, procurement and construction for electrical, instrumentation and telecommunication systems for Liquid Bulk Vessel	Thailand	Marine
Information Communication Technology		
• Supply, Installation and Commissioning of Time Management and Time Recording Systems for 40 Retail Outlets	Singapore	Retail
• Supply, Installation and Commissioning of Time Management and Time Recording Systems for 5 Freight Forwarding Site Offices	Singapore	Freight Forwarding
• Supply, Installation and Commissioning of Turnstile System and Personnel Time Management System for a Shipyard	Indonesia	Marine
• Supply, Installation and Commissioning of Door Access Systems and Integration across 4 regional offices	South East Asia	Freight Forwarding
