

Track Record

| Job Description | Location | Sector |
|---|-----------------------------|--------------------------|
| Project Works | | |
| Fabrication and erection of piping & steel structures, tie-ins and equipment installation for a major utility and flare facilities for a Chemical Complex | Singapore | Petrochemical |
| Fabrication and erection of piping & steel structures, tie-ins and equipment installation for a major on-site facility for an Oil Refinery | Singapore | Oil & Gas |
| Fabrication and erection of piping & steel structures, tie-ins and equipment installation for a major facility revamp covering on-site and berth/tankage facilities for an Oil Refinery | Singapore | Oil & Gas |
| Fabrication and erection of piping & steel structures, tie-ins and equipment installation for an Ethylene Cracker unit | Singapore | Oil & Gas |
| Fabrication and erection of piping & steel structures, tie-ins and equipment installation for a Clean Fuel Project for an Oil Refinery | Singapore | Oil & Gas |
| Engineering, procurement and construction for the replacement of an Air Preheater in Oil Refinery | Singapore | Oil & Gas |
| Engineering, procurement and construction for the replacement of Flues Stack and Ducting for Sulphur Recovery Unit of an Oil Refinery | Singapore | Oil & Gas |
| Engineering, procurement and construction for piping, civil and structural for a Polypropylene Plant on Jurong Island | Singapore | Petrochemical |
| Engineering, procurement and construction for piping, civil, E&I and commissioning for a Utility Plant on Jurong Island | Singapore | Utility/Services |
| Engineering, procurement and construction of cryogenic storage facilities for a Utility Plant | Singapore | Utility/Gases |
| Engineering, procurement and construction of storage facilities for a Power Plant | Singapore | Utility/Power |
| Fabrication and installation of topside modules including instrumentation, electrical and telecommunication systems for a FPSO vessel | Thailand/ Singapore | Marine |
| Engineering, procurement and construction of Butadiene storage tanks and export facilities for a Chemical Plant | Malaysia | Petrochemical |
| Engineering, procurement and construction for the reconstruction of a Chemical Plant and Air Separation Unit | Malaysia | Petrochemical |
| Engineering, procurement and construction for piping of a Chemical Cracker | Malaysia | Petrochemical |
| Fabrication and erection of piping for a LNG Plant | Qatar, United Arab Emirates | Petrochemical |
| Fabrication and erection of piping for a Chemical Plant | Saudi Arabia | Petrochemical |
| Plant Maintenance | | |
| Long Term Project Maintenance Contract for a Chemical Complex on Jurong Island | Singapore | Petrochemical |
| Long Term Maintenance Service Contract for mechanical services for Oil Refinery | Singapore | Oil & Gas |
| Long Term Piping, Fixed Equipment and Tankage Maintenance Service for Oil Refinery on Jurong Island | Singapore | Oil & Gas |
| Long Term Integrated Plot Maintenance Service for Oil Refinery on Jurong Island | Singapore | Oil & Gas |
| Maintenance and plant modification for an Ethylene Plant on Jurong Island | Singapore | Petrochemical |
| Long Term Mechanical Piping Maintenance Service for Pharmaceutical Plant | Singapore | Pharmaceutical |
| Maintenance of VLCC Jetty Infrastructure for an Oil Terminal on Jurong Island | Singapore | Oil & Chemical Terminals |
| Routine Maintenance Service Contract (Lifting & Rigging) for a Chemical Complex | China | Petrochemical |
| Routine Maintenance Service Contract for an MMA Chemical Plant | China | Petrochemical |
| Long Term Routine Maintenance Service Contract (Mechanical Scope) for a Chemical Complex | China | Petrochemical |

| Job Description | Location | Sector |
|---|-----------|---------------|
| Plant Turnaround | | |
| Turnaround Management for Towers, Drums & Furnaces for an Oil Refinery on Jurong Island | Singapore | Oil & Gas |
| Turnaround Management and Execution covering reactors, towers & drums, exchangers, piping and other support for a Chemical Complex | Singapore | Petrochemical |
| Shutdown Management and Execution for a Chemical Plant | Singapore | Petrochemical |
| Turnaround Management and Execution covering reactors, regenerator, rotating equipment, towers & drums, exchangers, piping and other support for a Chemical Complex | Singapore | Petrochemical |
| Turnaround Management and Execution for a Catalytic Cracker covering reactors, regenerator, rotating equipment, towers & drums, exchangers and piping | Singapore | Petrochemical |
| Turnaround Management and Execution for an Oil Refinery | Malaysia | Oil & Gas |
| Turnaround Execution for electrical & instrumentation work for Chemical Plant | Thailand | Petrochemical |
| Turnaround Management and Execution for a Chemical Complex | China | Petrochemical |

| Engineering | | |
|---|-----------|-------------------------|
| Project management for a Chemical Terminal on Jurong Island. Overall capacity of 450,000 m ³ | Singapore | Oil & Chemical Terminal |
| Front-end engineering design and project management for a Chemical Terminal. Overall capacity of 130,000 m ³ | China | Oil & Chemical Terminal |
| Front-end engineering design and project management for a Chemical Terminal. Overall capacity of 280,000 m ³ | China | Oil & Chemical Terminal |

| Oil & Chemical Terminal | | |
|--|--------------------------------|-------------------------|
| Engineering, procurement and construction of a Chemical Bulk Liquid Terminal with associated mechanical, piping, civil and E&I works. Overall capacity of 950,000 m ³ | Singapore | Oil & Chemical Terminal |
| Engineering, procurement and construction of a Bulk Liquid Terminal. Overall capacity of 810,000 m ³ | Malaysia | Oil & Chemical Terminal |
| Engineering, procurement and construction an Oil Distribution Terminal with associated tankage, piping, civil and E&I works. Overall capacity of 250,800 m ³ | Indonesia | Oil & Chemical Terminal |
| PMC and Engineering Services for an Oil Bulk Terminal. Overall capacity of 505,000 m ³ | Vietnam | Oil & Chemical Terminal |
| PMC and Engineering Services for a Chemical Terminal. | China | Oil & Chemical Terminal |
| Engineering, procurement and construction of a Bulk Liquid Terminal. Overall capacity of 465,000 m ³ | The Netherlands | Oil & Chemical Terminal |
| Engineering, procurement and construction an Oil Terminal with associated tankage, piping, civil and E&I works. Overall capacity of 800,000 m ³ | Fujairah, United Arab Emirates | Oil & Chemical Terminal |
| Engineering, procurement and construction of Oil Distribution Terminal. Overall capacity of 220,000 m ³ | Mozambique | Oil & Chemical Terminal |

| Electrical & Instrumentation | | |
|--|-----------|---------------|
| Project management, procurement, installation and commissioning of DCS, Instruments and Cables for Oil Refinery | Singapore | Oil & Gas |
| Long term Maintenance of instrumentation for Chemical Plant on Jurong Island | Singapore | Petrochemical |
| Long Term Routine Maintenance Service for Electrical & Instrumentation for Specialty Chemical Plant | Singapore | Petrochemical |
| Engineering, procurement and construction for electrical distribution and monitoring systems for Water Treatment Plant | Singapore | Utility/Water |
| Engineering, procurement and construction for electrical distribution system for Oil Refinery | Thailand | Petrochemical |
| Engineering, procurement and construction for electrical, instrumentation and telecommunication systems for Liquid Bulk Vessel | Thailand | Marine |
